DETAILED ACTION

Status of Claims

1. Claims 17-29 and 32-51 are pending.
2. Claims 30 and 31 were cancelled along with the amendment filed on October 23, 2001.
3. Claims 17-29 and 32-51 are rejected.

Response to Arguments

4. Applicant's arguments filed October 23, 2001 have been fully considered but they are not persuasive. Applicant's attorney argues that the incorporation of the phrase, "to the skin" limits the instant invention to skin treatment and accordingly obviates the present rejections under 35 U.S.C. 101 and 112, 1st paragraph, as agreed in the Interview of August 13, 2001.
5. In response to applicant's allegation that the incorporation of the phrase, "to the skin" would obviate the pending rejections as agreed in the personal interview it is noted that the Interview Summary of August 13, 2001 indicated that an agreement was reached for the consideration of the following phrase, "A method of treating skin disorders" for the generic claims. However, the instant claims still include the term of prevention or "prophylaxis" of a dysfunction or disease condition arising from oxidative damage to the skin with the administration of a spin trapping compound. Because the

Art Unit: 1614

instant claims still embrace the prevention of aging and wrinkling the rejections of record under 35 U.S.C. 101 and 112, 1st paragraph are still applicable.

Claim Rejections - 35 USC § 101

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. The rejection of claims 28-51 under 35 U.S.C. 101 because the claimed invention is not supported by either a credible asserted utility or a well established utility is maintained for both the above-stated and reasons of record.

Claim Rejections - 35 USC § 112

8. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

9. The rejection of claims 28-51 under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention is maintained for the reasons set forth in the Office Action dated July 13 2001 and also above in paragraph no. 5.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
